BOWSHIEL FARM

Viewpoint 7 Ecclaw Hill - Core Path

Existing View
This view looks along the upper Pease Burn valley from a slightly elevated position on a path crossing open farmland. Looking towards the Application Site, gently undulating hills of open farmland interspersed with tree belts and forestry/woodland blocks are seen with Penmanshiel and Drone Hill wind farms in open view across the valley on the skyline above. There are longer distance views northwards to the coast and Torness power station with rising ground in other directions curtailing more distant views and Quixwood Wind Farm and the consented extension seen beyond the skyline to the southeast.

Predicted Changes to Views
The Proposed Development would be seen on rising ground on the far side of the valley, extending across the open areas of farmland in front of forestry and below the wind farms, and extending up the hillside onto the skyline to the left of the wind farms. Proposed planting within and on the perimeter of panel areas would visually soften some of the edges of the Proposed Development and break up individual fields of panels but would not provide any notable screening from this viewpoint.

90° baseline panorama and photomontage or wireline
